## ACADEMIC MINORS, CONCENTRATIONS, AND ELECTIVES

## **Academic Minor**

A minor provides a guided plan of study within a discipline but with fewer requirements than a major. Typically, minors require core courses, beginning and advanced coursework in the field, and electives. Minors afford students a structured opportunity to enrich or complement majors, or to engage a separate academic field. Most departments and programs offering majors also offer a minor. In addition, stand-alone minors in are offered in the fields of Astronomy and Data for Political Research.

- Women's and Gender Studies (https://catalog.denison.edu/catalog/ courses-of-study/womens-gender-studies/)

## Concentrations

A concentration provides an interdisciplinary program of study, requiring a depth of study in a field that crosses disciplinary boundaries. Denison offers concentrations in the following fields: Computational Science, Latin American and Caribbean Studies, Middle East and North African Studies, Neuroscience, and Queer Studies. In addition, there are a few concentrations available only to majors in certain disciplines (Financial Economics in Economics, as well as several concentrations/ domains within Environmental Studies and Data Analytics). Two opportunities similar to a concentration are the Lugar Program (https:// catalog.denison.edu/catalog/courses-of-study/lugar-program/) and Organizational Studies (https://catalog.denison.edu/catalog/courses-ofstudy/organizational-studies/). Students interested in these fields should talk with appropriate faculty soon after they have begun their Denison careers.

## **Electives**

Electives may be chosen as a flexible mix to explore a variety of fields throughout Denison's curriculum or off-campus study. Denison maintains a list of accepted off-campus programs (https://denison.edu/academics/ study-abroad/how-it-works/), both in the U.S. and abroad. It is strongly recommended that students interested in off-campus study make an appointment with the Office of Global Programs and Off-Campus Study (https://catalog.denison.edu/catalog/courses-of-study/off-campus-study/) early in their Denison career to begin planning for off-campus study.

Students who want more structure in their choices of elective courses may pursue a minor, a concentration, or a second major.
