

# ASTRONOMY (MINOR)

---

## Departmental Guidelines

Astronomy is a natural science that studies planets, stars, galaxies, and space in general. The Department of Physics and Astronomy offers a variety of astronomy courses with different levels of depth and mathematical rigor.

A minor in astronomy is available to any Denison student. The student who desires preparation for graduate work in Astronomy, Astrophysics, or Space Physics should pursue a major in Physics with a minor in Astronomy and is encouraged to consult early with faculty in the Physics and Astronomy Department. See Physics Department section.
