

WRITING (W)

W 101 - First-Year Writing Workshop (4 Credit Hours)

Required of all students during their first year, the W101 course introduces students to the rigors of college-level writing and provides practice in formulating and presenting a significant argument in a cogent essay; in finding, evaluating, and incorporating research into their writing; and in assessing their own work and that of their peers. W101 can be used only to satisfy the "S" Writing GE requirement. Open to First Year students only.
