

2018-2019 EDITION

The concept of liberal arts embodies certain fundamental goals, among them breadth, depth, independent thinking, and rational and humane self-determination. Denison's curriculum provides the means by which these characteristics are deliberately nurtured in our students. The course catalog holds important information on academic policies and provides descriptions of Denison's majors, minors, concentrations, and courses offered each academic year. The catalog is updated annually; previous course catalogs are available (<https://denison-preview.courseleaf.com/previous-editions>).

Navigate the current course catalog:
